EDUCATION

Wichita State University
BS in Computer Science, Minor in Mathematics

Wichita, KS
Dec. 2022

EXPERIENCE

Veeva Systems
Software Quality Engineer

San Francisco, CA
May'23-Present

Built UI/API/SDK systems and automations including reusable frameworks for mobile (Swift) and web (Java/Gherkin). Designed a document generator that let QA engineers produce repetitive test data on demand. Integration lead for LambdaTest to GitLab CI/CD integrations to test mobile automation at scale, saving \$120k in annual functional costs. Built Python/API services powering a Gitlab pipeline to run a scheduled build that spins up a headless ec2 instance, clones the repo, builds the application, uploads to LambdaTest, and cleanup/generates build artifacts. Presented at TestFu 2024 to a global audience with 30,000+ attendees—selected after pioneering early integrations of LambdaTest's cloud grid with XCUITest and Espresso native mobile frameworks.

Textron Aviation
Information Systems Developer Internship

Wichita, KS
May'22-Aug'22

Developed CI/CD pipelines in the Azure DevOps space to automate build and deployment processes between Enovia and system admins. Set up agent pool + agent on a self-hosted Linux server to perform build tasks and event handling. Aided in the migration from TortoiseSVN to Git as primary source control with Linux CLI.

Ennovar
Salesforce CRM Software Developer

Wichita, KS
July'21-Dec'22

Created digital workers to scrape, automate, and visualize data using UiPath (C#/VB/Python). Bots ran on an ec2 instance triggered by Azure DevOps pipelines. Maintained and extended Salesforce CRM with Apex, SOQL, and custom automations. Reduced various query runtimes by 10-50%.

SELECTED PROJECTS

<https://lekevin.com>

Second version of my portfolio website. Drafted in Figma, built with React, Next.js, Express.js, Tailwind CSS, deployed with Heroku. Integrated a Spotify API to surface live listening data.

<https://v1.lekevin.com>

The initial draft of lekevin.com. Built with Vue.js + Typescript.

<https://google-keep-react-eight.vercel.app>

Simple Google Keep to learn about React and Javascript.

SKILLS

React | Vite | Express.js | Node.js | TypeScript | JavaScript | REST API | Tailwind | Python3 | C++ | Linux | HTML/CSS | Azure DevOps | Swift | .NET MAUI | SQL | C# | Bash | Java | Agile/Scrum | Git
